QUICK CHANGE

Law Found by Which Paducah Can Immediately Get Into the Second Class.

TO BE ENFORCED AT ONCE

The Fall Election of Officers Will Probably Be for Second-Class City.

GOOD MANY CHANGES WILL RESULT

Mayor Lang today discovered a law which if carried out will effect a complete change in city government by November and incidentally play havoc with some of the candidates for city offices.

It is a law which enables the city to enter the second class at once, without waiting to be placed there by the legislature next January.

It can be done as soon as a census is taken showing 20,000 people.

The council at its meeting Monday night voted to take a census in June, but the present law will enable it to go ahead with the work without any delay, and a start will be taken at once.

The law is section 3,264 of the Kentucky statutes and is as follows:

"HOW CITIES ARE TRANSFERRED TO ANOTHER CLASS: When the population of any city in

this class, as ascertained by the last federal census, or by a census taken pursuant to an ordinance of said city, authorizing it to be placed in a class other than that in which it is, the council of such city may enact an ordinance, setting forth the population of the city, and how ascertained, the class it is then in, and the class which it is entitled to be in, and may file a petition in the circuit clerk's office of the county, declaring the facts with reference to its population, and the class it desires to become a member of, and such other facts as may be thought proper, and shall file with such petition a copy of the ordinance, and shall cause notice of the filing of such petition, and the object thereof, to be published in at least six issues of a daily or two issues of a weekly paper, of general circulation, published in the city, or in the county, if none be published in the city; or if no paper be published in the city or county, by notices put up for at least ten days, at four public places in said city. On the second day of the next regular term of court the court shall, if the proper notice has been given, or publication is interposed, enter a judgment assigning such city to the class to which it belongs, as appears from the petition and exhibits, and thereafter such city shall be governed by and under the general laws relating to the class to which it has been assigned, and to such an extent only shall any ordinance or bylaw be repealed by the transfer, nor shall the powers, rights, duties or obligations of the city be in

anywise affected by the transfer or any officer or employee thereof, or any debtor or creditor of the city. Defense may be made to the petition by any inhabitant of the city; and if defense is made, the court shall hear and determine the same, and under a judgment transferring, or refusing to transfer the city to another class, as may seem proper. The pleadings and practice shall be the same as in equity cases, except as herein provided; but if the court shall be satisfied that the population of the city entitles it to be transferred to another class, it shall so adjudge if the proper notice or publication has been made; and no appeal shall be made from the judgment.

As soon as Mayor Lang found the above section he submitted it to Hon. E. W. Bagby, in the absence of City Attorney Lightfoot.

After carefully considering it Mr. Bagby gave it as his opinion that Paducah can become a city of the second class as soon as she shows 20,000 inhabitants, by a simple order of court, without waiting for the next legislature a year hence, and in time to elect all the city officers this fall under the second class city charter. The proper steps will be taken at once to take the census and become a second class city.

And if these plans are carried out there will be a considerable change in the fall election.

An upper board and lower board of councilmen will have to be elected, instead of one board; the office of city marshal, for which there are now half a dozen aspirants, will be abolished entirely, and the city clerk and city treasurer will have to be elected by the people instead of council.

There are also many other changes which will be made known later.

Special Agent Lofley, of the Illinois Central, is in the city today.

LOOKS UGLY

Effort to Close the Saloons in Winfield, Kan., About to Create a Clash of

THE OPPOSING FACTIONS

Excited People Throng the Streets, Which Many Armed Deputy Marshals Also Patrol.

SALOONS ORDERED TO AND MUST GO

Winfield, Kas., Feb. 20.—This place is in a stir today over an effort to close the saloons here. The saloonists have been ordered to close up, the time being set for noon, but they refuse to comply with the order. The people consequently are rapidly working themselves into a dangerous condition and trouble of a serious nature seems to be near. Hundreds of deputy marshals are patrolling the streets to prevent trouble and their effort may not succeed. The saloons are doomed and will have to go sooner or later.

MAKES A STRONG SPEECH.

Washington, Feb. 20.—Senator Debo delivered a strong speech yesterday relative to the Nicaragua canal project. The speech was well praised by the capital correspondents.

HEART DISEASE

Sudden Death This Morning of Conductor Wm. Holloway at Boaz Station.

ILL ONLY A SHORT TIME

His Family Was in Memphis and Arrives Today—His Home Was Formerly in Illinois.

THE REMAINS ARE TO BE SHIPPED

Conductor Wm. Holloway, of the Illinois Central, dropped dead in his caboose at Boaz Station, a few miles below Paducah, at an early hour this morning.

He left Paducah at 12:30 last night in charge of the second section of freight train 151. He was not ill when he left, but about a mile this side of Boaz Station began complaining, and when the train pulled into the side track at Boaz, Flagman Henry Cooley ran up to notify the engineer.

When they returned to the caboose Conductor Holloway had rolled off a trunk and lay on the floor dead.

The body was brought to the city at 5 o'clock on a freight train and taken to Nance's undertaking establishment.

Conductor Holloway's train was taken out from Boaz by Conductor Readon, who left the city on the 4 o'clock train.

The deceased was about 35 years old, and leaves a wife and two children, a boy and a girl, who were visiting in Memphis.

His home was in Roadhouse, Ill., but he had been running as a freight conductor on this road for two or three years.

Coroner Phelps will probably hold an inquest, just as a formality, some time today.

The remains will be shipped this evening at 6 o'clock to Roadhouse, Ill., for burial.

GATHERING THEM IN.

THE STEEL TRUST ADDS A NEW LINE TO ITS PURCHASES.

New York, Feb. 20.—The Times says that the purchase of the Cleveland, Lorain and Wheeling railroad from Blair & Co. by Morgan & Co., in the interest of the new enormous steel consolidation, has been consummated. The road runs from Wheeling, W. Va., up to Lake Erie, with terminals at both Cleveland and Lorain, covering about 200 miles. It is capitalized for \$5,000,000 common and \$5,000,000 preferred. Along the line are a variety of prosperous industrial properties established there for the nearby supply of both coal and iron ore.

New York, Feb. 20.—It is stated that the Seaboard Air line has secured control of the Chattanooga, Rome and Southern railroad.

LOS ANGELES, CAL., FEB. 20.—It is reported here that Senator W. A. Clark's proposed San Pedro, Los Angeles and Salt Lake City railway will pass into the control of the Burlington, affording the latter a transcontinental line independent of the Harriman syndicate.

CLOSES TONIGHT.

CONTEST FOR THE MOST POPULAR YOUNG LADY IS SPIRITED.

One of the most interesting features of the carnival is the contest to decide who is the most popular young lady in the city. There has been a good deal of interest taken in it today and tonight it promises to be very lively. The contest will close tonight at 11 o'clock. The vote at present stands: Misses May Terrell, 17; Tessie Blum, 10; Jane Rivers, 11; Ruth Weil, 1; Irma Hecht, 6; May Davis, 19; Florence Yeiser, 5; Martha Leech, 11; Ida Lenke, 6; Mrs. W. A. Davis, 12; Misses Mary Halloran, 1; Bertha Hill, 18; Lillian Rudy, 10; Irene Scott, 5; Mary Boswell, 3; Elizabeth Sinnott, 6; Martha Davis, 4; Olga List, 3; Ella Sanders, 5; Mesdames George Flournoy, 12; E. W. Balsman, 3; J. J. Bornschein, 23; Harris Rankin, 2; P. H. Stewart, 2; Pat Lally, 3; Cook Husbands, 3.

REMARKABLE LUCK.

THE DUCKS CAME ALL RIGHT, BUT MR. WEILLE HAS NOT ARRIVED.

Yesterday Mr. Ben Weille headed a party composed of himself and Messrs. J. Wheeler Campbell, Clarence Martin and Dr. H. T. Rivers, who left for Marshall county to hunt ducks.

Today four ducks from Union City, Tenn., arrived by the Southern express for Mr. Weille, but he was not here to receive them, so they were left with the express company until he returns to claim them.

While the ducks came from Reelfoot Lake, it is probable that Mr. Weille wounded them in Marshall county, and flying to Reelfoot to die they were found by some friend of Mr. Weille who accidentally recognized his ownership by the peculiar manner in which he always shoots them, and sent them to him by express, knowing he would want them as trophies when he returned from his hunt, to show to his friends.

Dr. P. H. Stewart, however, says that Mr. Weille ordered the ducks by express before he left home and did not expect them to arrive until after he came back and could take them out of the express office before anyone found it out.

ELLIS GLENN.

IMPOSTRESS AGAIN BROUGHT INTO COURT IN WEST VIRGINIA.

The sensational arrest of Ellis Glenn, the woman masquerading as a man, in Paducah a year or two ago on a charge of forgery committed in Parkersburg, West Va., is recalled by dispatches from Parkersburg relative to the trial. Yesterday's telegrams say: "Ellis Glenn, the alleged male impostress, charged with forgery, was brought into court this morning. The case depends on whether E. B. Glenn, known as a man, and Ellis Glenn, the woman, are the same persons. She stated that Mrs. Earl Knight, of this city, could state positively that E. B. Glenn can be found at present."

Attorneys for the alleged gamblers in Louisville will ask the court of appeals for a writ of prohibition against Judge Barker.

He Protested His Innocence to the Last and Was Returned to the County Jail.

THERE IS STILL TALK OF A LYNCHING

Dyersburg, Tenn., Feb. 20.—A mob last night took Beebe Montgomery from jail and swung him up to a limb in the court house yard five times in an effort to make him confess his complicity in the assault on Miss Arnold. He denied his guilt every time and he was finally taken back to the jail more dead than alive. A third negro is being sought and if found both may be lynched immediately.

SILEVLA EXPLAINS.

Madrid, Feb. 20.—Senator Silvela, the former premier, said in an interview that the disorders in Spain were the outcome of the American war. Spain, he said, is financially ruined and her currency depreciated. The Cuban debt is largely responsible for this. Party machinations, says Silvela, may cause a ministerial crisis, but the effect of this will not be important.

MONEY AND BONES FOUND.

Carlisle, Ky., Feb. 20.—While excavating on the farm of Wake Young, near town, workmen unearthed a skeleton, by the side of which was found an earthen jar containing 120 Spanish milled dollars and a few gold pieces.

Additional arrests in the Philippines show a widespread business in trading with Filipino insurgents. A prominent Belgian of Manila is under arrest and the Belgian consul has hastily left for Europe with his family to avoid arrest.

A FINE PERFORMANCE.

THE PLEIADES DRAMATIC CLUB PLEASED A LARGE AUDIENCE LAST NIGHT.

One of the prettiest amateur entertainments ever presented to a Paducah audience was given by the Pleiades Dramatic club at the K. of P. hall last night.

The hall was comfortably filled with the friends of the talented young people who compose this club, and while they expected a good performance they hardly expected the splendid one they saw. The theme of the play was a happy one and each part was well essayed. The musical numbers of the program were also very fine, and the entertainment as a whole will be most pleasantly remembered.

It is the intention of the club to give another performance, probably after Easter. All the members are possessed of good dramatic talent and anything they select will be given a good rendition. The performance last night was for the benefit of the Historical and Literary society and a very neat sum was realized.

HAMILTON'S CONVICTION.

Minneapolis, Minn., Feb. 20.—The case of Frank H. Hamilton, charged with stabbing to death Leonard Day, because of jealousy over a woman to whom both were paying attention, has been with the jury since Monday night, but there has been no finding so far as the public knows. There is, however, a report that the jury has declared a conviction and recommended Hamilton to the mercy of the court, but the report lacks confirmation.

That \$100,000 steel board is again in session. There will soon be another startling arrest and another "bite" taken from the cherry. The two go hand in hand.

The ministers who preach long sermons would do well to note the undisputed fact that short sermons are more conducive to short naps among their congregations than long ones.

There is not so much kicking against electrocution as against hanging. It may be that this is the result of strapping the electrocuted victims down; but whether this is the case or not it is a fact without doubt.

Secretary of State Hill has issued a circular letter to secretaries of political committees in the various countries informing them that if primary elections are held under the law the ballots must be preserved. This regulation is consistent to the new election law if not a requirement.

Senator Hale has introduced a bill reviving the grade of vice admiral, being in the interest of Sampson and Schley. There is also a resolution of thanks to Sampson. Mr. McComas has introduced a similar bill save that it requires that the officer promoted must have participated in the battle of Santiago.

Spain is about to lose her very respectable queen regent. The "signs of the times" point to an insurrection in that country and a probable form of government with some military genius at the head. "Butcher" Weyler seems to be the power behind this threatened change of government, though it would be swapping an angel for the very devil himself to give the queen regent up for Weyler.

The American troops in China will be withheld from Waldersee's expedition into the interior of the kingdom as a menace for delay in conforming to the peace agreement. There is just a possibility and a probability that the declaration of America to join in this move will create a breach among the powers and justify opposition by other governments to subsequent actions in the same line.

Secretary Gage says his action in the matter of the countervailing duty on Russian sugar was a question purely of law and of fact. His decision, he says, can be reviewed by the board of general appraisers and by the courts and the importers, he suggests, should take their grievances there. He hopes that as a proper presentation of the matter to the Russian government Minister De Witte's action will be revoked.

THE LENTEN SEASON.

This is Ash Wednesday, the beginning of the first day of Lent. The day and the season which follow are most important ones to a large part of the religious world.

In the Catholic church the priest before mass sprinkles ashes in the form of a cross on the foreheads of those who go to the altar rail, saying in Latin as he does so: "Remember, man, thou art dust; and unto dust shalt thou return." The fast of Lent continues for forty days, or until Easter Sunday. The regulations in the diocese of Louisville provide that only one full meal a day shall be partaken of except on Sunday. The use of flesh meat is prohibited on Wednesday and Friday. Those under twenty-one or over sixty years of age are exempt as well as the sick, infirm, those who work hard manual labor, or those whose health would be injured by fasting.

The church permits no marriages during Lent, except by dispensation, and the faithful are expected to refrain from all public amusements. The church vestments in use are changed to purple, indicative of mourning, except on Good Friday, when black is used. These services are generally commemorative of the death of Christ in the wilderness.

Episcopal and Lutheran Lenten services are also held and are less vigorous than those of the members of the "High" church. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

IN REMEMBRANCE OF LINCOLN.

BY REV. T. DE WITT TALMAGE.
Copyright, 1901, the Christian Herald, New York.

The first time we saw him, we followed into his room a committee who had come to Washington to tell the president how to conduct the war. We do not know who the committee was. The president was the saddest looking man I ever saw. He had a far away look. He evidently, while standing under the fire of an address which was being made to him, saw the battle fields and hospitals and configurations and national bereavement. One of his great trials was that of being subjected to advice by people of all sorts who had no qualification for giving advice. When one of our party asked for his autograph, he cheerfully gave it, asking, "Is this all I can do for you?" At that time he was the most abused man in America. Today he is the most admired man in all our country, with the exception of Washington. My friend, the late Henry W. Grady, then the editor of the Atlanta Constitution, and a typical southerner, startled the north with his appreciation of Abraham Lincoln. It was at a New England dinner at Delmonico's, New York, ten or fifteen years ago. I had in my remarks spoken of the typical American, and that he would appear fifty or seventy-five years from then, and that he would be a compound of many nationalities, that he would have all the best of their characteristics. Mr. Grady following said, "Mr. Talmage has spoken of the great American as coming fifty or seventy-five years from now. Gentlemen, I have to tell you that the typical American has come. He was Abraham Lincoln!" The effect was electric. That sentiment uttered by a northern man would not have had such an effect, but it was uttered by a southern man, whose father fought and died on the southern side. The whole world now loves the memory of Abraham Lincoln. He was the impersonation of kindness. On my desk as I make this paragraph is a letter in his own handwriting. It was yesterday presented to us by a friend. It was written before the days of typewriting, and is in Mr. Lincoln's own penmanship. The Methodist conference assembled in Baltimore had passed a resolution of encouragement and sent it to Mr. Lincoln, and this is his reply:

"Gentlemen—In response to your address, allow me to attest the accuracy of its historical statements; in doing the sentiment it expresses and thank you in the nation's name for the sure promise it gives.

"Nobly sustained as the government has been by all the churches, I would utter nothing which might in the least appear injurious against any. Yet without this it may fairly be said that the Methodist Episcopal church, not less devoted than the rest, is by its greater numbers, the most important of all. It is no fault in others that the Methodist church needs more soldiers to the field, more nurses to the hospital, and more prayers to heaven than any. God bless the Methodist church—bless all the churches, and blessed be God, who, in this our great trial, giveth us the churches. A. LINCOLN."

May 18, 1864

There is the chronology of this letter—a calmness, a confidence, and a clearness which give no suggestion of the horrors which the country was then passing. Every emotion, sentiment and period is in the right place. Abraham Lincoln was a Presbyterian, yet in this letter he especially compliments another denomination, and asks for the divine blessing of all the denominations. There will probably never be another Abraham Lincoln, for the reason there will probably never again be a need for such a man. He was a great sufferer through his sympathies. General W. T. Sherman showed me, many years ago, in his home at St. Louis, a picture of a steamboat cabin in which President Lincoln, General Grant, and himself sat during the darkest time of the civil war. The picture was nothing as a work of art, but Gen. Sherman kept it to bring to mind what was said in that interview. He told me that President Lincoln exclaimed, in a great outburst of grief: "I cannot stand it any longer, this bloodshed; how can we stop this war? What a suggestive picture it was when one had explained to him what occurred in that steamboat cabin. Assassination always kills the wrong man, and a worse deed than the taking off of such a president cannot be imagined. Well may the nation celebrate the anniversary of the birthday of the most renowned man of the nineteenth and twentieth centuries, who once said to himself, 'Of course, when I came of age I did not know much; still, somehow I could read, write and cipher to the rule of three, but that was all. I have not been to school since. The little advance I now have upon this state of education I picked up from time to time under the pressure of necessity.'"

Henry W. Grady was right when he corrected me at the Delmonico dinner and said: "The typical American has come, and he was Abraham Lincoln!"

ABROGATION MOVEMENT.

CANAL TREATY TO BE TAKEN UP IN EXTRA SESSION.

Strong Sentiment in Favor of Abrogation of the Clayton-Bulwer Convention.

Says a Washington telegram: In preparation for the extra session now confidently looked for, members of the senate and house committees on foreign affairs and peninsular affairs are gathering material for speeches on Cuba. What the outcome will be in respect to the relations which are to be established or indicated between the United States and Cuba, not even those having this momentous question in charge can foretell. The president's message, it is expected, will furnish the key for discussion of the problem considered by the executive in urgent need of immediate solution.

Aside from the Cuban question, there are senators preparing themselves for action on the Clayton-Bulwer treaty. It is believed probable that the British foreign office will fail to make answer to the amendments to the Hay-Panama treaty, leaving that convention to lapse with the adjournment of the present congress. The intention of the British government, it is unofficially understood, is to begin negotiations for a new treaty, in which the senate amendments will not figure, or perhaps will be modified. This programme, according to the present view of the responsible leaders in the senate, will not be carried into effect. They privately repeat their determination of standing by the senate amendments in any future negotiations, but such negotiations, it has been decided, will be remote, so far as time is concerned. There are senators who assert that the lapse of the Hay-Panama treaty, by the failure of Great Britain to reply before March 4, will prevent a renewal of the negotiations. The treaty will die through the fault of Great Britain. Therefore, the study of the authorities on international law is going to find precedents for the abrogation of the Clayton-Bulwer treaty. Further than this the plans have not been matured for the extra session, but the passage of the Nicaragua canal bill is deemed to be not improbable. The strongest reason for abrogation on the part of the United States is the principle established in the authorities that a treaty may be abrogated when the conditions under which it was made no longer exist. This, it is said, is the case with the Clayton-Bulwer treaty.

A report from the forty-sixth congress, made April 16, 1880, in the house, by Mr. Cox, of New York, on the subject, is in general demand. The committee seems to have been unanimous in the following declaration:

"The circumstances in which the treaty was originally negotiated have been profoundly modified by the lapse of thirty years, and it appears to your committee to be entirely clear that as an obstacle and possible peril in the way of a complete and pacific assertion of the sound, necessary and vigorous American policy laid down in the president's message of March 8, 1880, this treaty should now be finally and formally abrogated. It has been shown to have led only to great misunderstandings and controversies with the power with which we were unwisely led to make it. It has always been equally ineoperative either to guarantee the independence of the Central American states or to advance the general interests of commerce. So long as it has even a formal shadow of existence it can not but tend to cloud and obscure the perfectly simple, just and equitable policy of the United States in regard to the interoceanic transit and to any plans or enterprises wherever originated and organized for opening a seaway through the isthmus of Panama or the Central American states. Your committee, therefore, recommends the passage of the following joint resolution:

"Resolved, etc., [That the president of the United States be, and he

is hereby respectfully requested, if the same in his opinion shall not be incompatible with the public interests, to take immediate steps for the formal and final abrogation of the convention of April 19, 1850, between the United States and her Britannic Majesty, commonly called the ship canal treaty or the Clayton-Bulwer treaty."

Nothing came of this report and resolution and nothing may come out of the committee on foreign relations to affect the Clayton-Bulwer treaty in the extra session. The course contemplated does not receive entire approval, but it is a matter of news that the project is under way and that speeches are being prepared with the view of popularizing the movement.

MUSIC VS. DRUGS.

HUMAN ILLS ANOTHER NAME FOR OUT OF TUNE.

Chicago Hypnotist Adds Something to the List of Curing Agencies.

Says a Minneapolis telegram: People here are considerably interested in the claims of Doctor W. Xavier Suduth, formerly of this city, but now of Chicago, that human ills can be cured by music.

Dr. Suduth has a theory, which he seems to have demonstrated with encouraging success, that every human being has a "bodily keynote," which varies according to the physical condition, mental or spiritual mood, atmospheric conditions, and the like. It asserts that the common expression that one's nervous system is "a little out of tune" is likely true. With the use of a complicated machine, the doctor proposes to find this bodily keynote and put it in tune.

He points out that it is a fact beyond question that every person is susceptible to the soothing effect of some particular song or strain of music; and that in each such pleasing harmony there is a distinct note, or short series of notes, which, in greater or lesser measure, acts as a sedative upon overwrought nerves. He cites as an instance the susceptibility of a babe to the quieting influence of a lullaby; as another instance, the power of a favorite opera to restore a worried man of affairs to a degree of serenity. He deduces from his reasonings, that irascibility but be the result of the human mind and body being literally out of tune; that it is within the power of some particular harmony to correct the disturbance and remove the effect.

Dr. Suduth was known in Minneapolis as a man of original ideas long before he promulgated his theory of "harmonic vibrations" as a cure for human ills. He was a dentist here in the early nineties, and became noted as an expert hypnotist who employed that science in his dental work.

Not only could he perform wonderful tricks with the mysterious science, but he succeeded in mastering it to an extent that would admit of its application to himself. He claimed that he was able to drop to sleep at any time and wake at any hour he desired, and this way restore all the vitality the body had lost in any exertion. He succeeded in teaching several students at the "U" to do the same, and more than one of them, it is said, could drop into a hypnotic trance on a street car and awake when the car arrived at any particular street.

But the doctor's experiments became rather annoying to those connected with the school, and there was complaint from patients in the dispensary of the dental college that they were unwilling to have work performed while they were under the spell, for that was where the doctor insisted on putting them.

So, out of sympathy with others in his departments, and desirous of prosecuting his experiments further than was possible here, Doctor Suduth resigned and went to Chicago. He was joined by Herbert A. Parkyn, a young Canadian, a student in the dental college, a football player and later a practitioner in Minneapolis. Parkyn was in sympathy with all of Doctor Suduth's views and works, and they opened up an office in Chicago.

Then a wealthy relative of Doctor Suduth left him a small fortune, and the doctor, still with his mind on nothing but his scientific work, left immediately for Germany, where he continued his study of hypnotism. A short time ago he returned to the United States, and, going again to Chicago he expounded this new theory of the application of music as an antidote for bodily ills. The result of the new theory, which the Chicago papers say is "the therapeutic practice which is interesting the medical world just now," will be watched with great interest.

Dr. Suduth now holds the position of professor of morbid psychology at what is known as the Post Graduate Medical School of Chicago.

A GOOD DEAL OF NONSENSE

ABOUT "BLOOD PURIFIERS" AND "TONICS"

Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is, from wholesome food properly digested. There is no other way and the idea that a medicine in itself can purify the blood or supply new tissues and strong nerves is ridiculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease or that other fallacy, that a weak stomach which refuses to digest food can be made to do so, by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas and bloating after meals, because they furnish the digestive principle which weak stomachs lack, and unless the deficiency of pepsin and diastase is supplied it is useless to attempt to cure stomach trouble by the use of "tonics," "pills" and "cathartics" which have absolutely no digestive power, and their only effect is to give temporary stimulation.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs and starchy foods, and experiments have shown that the tablets are as effective in the stomach as they are in the laboratory.

There is probably no remedy so universally used as Stuart's Dyspepsia Tablets, because it is not only the sick and ailing, but well people who use them at every meal to insure perfect digestion and assimilation of food.

People who enjoy fair health take Stuart's Tablets as regularly as they take their meals, because they keep them well; prevention is always better than cure and Stuart's Dyspepsia Tablets do both; they prevent indigestion and they remove it where it exists. The regular use of one or two of them after meals will demonstrate their merit and efficiency better than any other argument.

FREQUENT COUGHING inflames the lungs. FOLEY'S HONEY AND TAR stops the coughing and heals the lungs. The ordinary cough medicines, which are simply expectorants, will not do this, as they keep the lungs irritated in throwing off the phlegm. J. C. GILBERT.

CHINESE NEW YEAR.

DAY WHEN CELESTIALS BURN MONEY AND JOSS STICKS.

The Chinese new year fell Monday. The festival is the chief one of the Chinese year and is variable in date, usually occurring between January 25 and February 20. As the Celestials have no regularly ordained day of rest or religious observances, they spread themselves on this occasion, and burn money and joss sticks with indiscriminate prodigality.

The celebration begins by a general closing of accounts and settling of debts, for the Chinese consider it a dishonor to carry debts over from one year to another. All old charms and streamers in the houses are destroyed, bright new red ones being purchased in their place. These prayer slips are blue in the families in which death has visited during the last twelve months. The feasting will last for ten days.

TO SOLVE THE MYSTERY. Birmingham, N. Y., Feb. 20.—Abnormal desire to solve the mysteries of a future life drove Edward Ackerman to commit suicide. Ackerman was an ardent reader of everything pertaining to psychology and a future state. After his wife had retired last evening, he called for her saying he had determined to seek a solution of the problem by a personal experience and had taken poison. Hall's family summoned a physician and attempted to administer an emetic, but Ackerman fought furiously, and when the doctor arrived ten minutes later he was dead. He ended his life by swallowing aconite and carbolic acid.

CALLED MEETING.

SCHOOL BOARD TO MEET TO ACCEPT PROF. MAY'S

Resignation—His Successor—Two Applicants From Other Places—School Census Enumerators.

The board of education will be called to meet next Tuesday night to receive the resignation of Prof. Frank B. May, principal of Longfellow school. It will in all probability be accepted.

There are at present two applicants from other places for the position, Prof. J. E. Snider, principal of the Morganfield schools, and Prof. L. E. Grimes, principal of the Orangeburg, Ky., schools.

Miss Mary F. Dodson, assistant principal of the High school, is also favorably mentioned for the place, and in the event of her election Miss Adah Brazleton will probably be elected to succeed Miss Dodson and Miss Hattie Wilson to succeed Miss Brazleton.

It is not known how the school board will fill the vacancy, however. Miss Dodson has taught in the schools here for several years, and is mentioned as the most capable of the three applicants, not only on account of her ability as a teacher, but for her unqualified familiarity with the Paducah public schools as well.

Prof. May, it is understood, will remain in Paducah and go into the life insurance business with Prof. Geo. O. McBrum.

At the next regular meeting of the school board, the enumerators for the school census will be elected by the school board. There are at present only two applicants, Messrs. J. M. Hart and W. D. Brown. Three enumerators will be elected.

MEDICAL SOCIETY MEETS.

The Paducah Medical and Surgical society will meet tonight with Dr. J. D. Robertson, and an interesting meeting is anticipated.

SEVERAL FINES ASSESSED BY JUDGE SANDERS

In His Tribunal Today—Walter Smith Case Continued—Other Trials Disposed of.

Second Mate Robert Till, of the City of Clifton, who was arrested for maliciously assaulting Geo. Tapley, a roaster, was this morning arraigned before Judge Sanders and the warrant was dismissed, the negro not having been seen since he swore out the warrant.

The case against Walter Smith, colored, charged with breaking into an Illinois Central box car, was continued until Friday. Hon. I. M. Quigley will assist in the prosecution.

Thomas Henry, colored, for picking up coal in the railroad yards, was fined \$10 and costs for disorderly conduct.

Will Wilson, R. G. Sanders and Scott Lindsey were fined \$1 and costs for plain drunks.

Berry Hubbard and Mamie Palmer, colored, were fined \$1 and costs each for engaging in a difficulty in the Kahn yard.

The case against Will Lucas, colored, for engaging in a fight with Harry Stone, was again left open, Stone not having been found.

Arthur Dunn, Will Taylor, Tom Moore and Ed Bigbee were fined \$1 and costs each for having too much fun beating a horse they were driving.

Ladies you will be surprised at the ease and grace of our \$2.00 and \$3.00 shoes.

Irrigation Destroying Fish.
Irrigation is destroying many fish in the rivers of Nebraska. Some time ago a dam was put in Shell creek, near Schuyler. The entire flow of water was cut off and subverted to the adjoining field, leaving the creek below to run dry. No water was left below the dam but small pools, and thousands of fish were killed on this account. People went into the small pools and threw out ten and fifteen pound fish of all kinds with pitchforks. The finest kind of cat, bass, etc., were secured.

Marked Down Below Line.
Prof. W. B. Clark of Johns Hopkins university has been appointed by the governor of Maryland commissioner on behalf of that state, to act with a similar commission of Pennsylvania and the superintendent of the United States coast and geodetic survey in the re-establishment of the old Mason and Dixon line.

They were accompanied by Mr. Jeff J. Read and Miss Maggie Riclesberger. Both are popular young people and have been sweethearts for several years past. The crowd will return tonight on the Fowler.

WEDDED YESTERDAY

YESTERDAY AFTERNOON AT 3:30 IN the parlors of the paragonage of the St. Frances De Sales church, in the presence of quite a number of friends, the Rev. Father Jansen officiating, Mr. Louis Wortman and Miss May Huttler were united in marriage.

Mr. Michael Conner supported the groom and Miss Lulu Snyder the bride. The party drove in a carriage from the home of Mr. Henry Snyder, to the paragonage and after the ceremony they returned to Mrs. Snyder's, who is a sister of the bride and who tendered them a supper. The dining room was beautifully decorated and there were sixty-nine guests. The bride was the recipient of many beautiful and serviceable presents.

Mr. and Mrs. Wortman will be at home to their friends after today, at No. 254 Clements street.

RAILROAD NEWS.

The Pullman Co. has announced new rates to private parties for sleeping car service. Private cars may be chartered at \$50 per day for fewer than thirty days. For ninety days the rate is \$35 per day. The rate for a train, one compartment, one sleeper, one diner and one observation car, is \$215 a day. These are reductions on former rates.

The Harriman syndicate now controls the Illinois Central, with 957 miles; Union Pacific, 45,448 miles; Chicago and Alton, 900 miles; Kansas City Southern, 873 miles; Chicago Terminal Transfer, 2,417 miles, and Southern Pacific, 7,417 miles. These roads, with a total of 19,853 miles, have a capital stock of \$64,500,000, and earned gross last year \$143,413,000.

For the month of January 107 roads with 110,183 miles, reporting to the Financial Chronicle, show an increase in gross earnings of \$4,274,978, or 7.14 per cent.

The Southern railroads are now trying pine ties, the oak having become scarce. The ties are treated with a bath of creosote, which is said to harden and preserve the wood.

Operator W. L. Sloan, formerly of the union depot here, but now of Carbondale, Ill., was in the city today on route to Louisville, Ky., on a month's visit to relatives.

The pay train of the Illinois Central arrived today. It goes to Louisville in the morning.

GREAT SUCCESS.

THE MIDWINTER CARNIVAL AN ATTRACTIVE AFFAIR—WELL PATRONIZED—CLOSES TONIGHT.

The ladies of the Synagogue are all smiles today and are kept busy receiving congratulations of the splendid attraction they have made of the mid winter carnival and the merited success it is having.

The building looked like a veritable fairland last night. There was booth after booth filled with overflowing with fine, handsome goods of every description and variety and presided over by handsome matrons and pretty maids, and the business they enjoyed was enough to cause the average merchant to be envious.

The articles were all very handsome and sold for remarkably cheap prices. Some of them were auctioned off while others were raffled. Mrs. J. J. Bleich won a fine drugget and Mrs. Max Nahn captured a very pretty clock. The stock is by no means exhausted and the raffles will continue tonight. Among the articles are: A rubber tired buggy, a center table, a hanging lamp, a dressing table, a Moore air tight heater, a very handsome diamond pendant, a set of dishes and numerous pieces of fancy work. They will all be raffled tonight. A supper, also, will be served for the merchants and clerks who have to attend to the railroad trade this evening.

Louisville Post: Pilots in from the lower Ohio report that the great spring that boils up just off the Kentucky shore one mile below the foot of "The Narrows," and sixty-five miles below this city, is at the zenith of its glory while the water in the river is at its present stage, the big body of clear water forcing its way through the muddy substance of the river, making a decided contrast. Investigations made during the low water periods reveals the fact that this spring is thirty-three feet in diameter, while at that stage a sounding line shows it to be four fathoms, twenty-four feet, deep. The water rushes from it in a volume equal to a good sized creek, and many believe it to be the outlet to an unknown submarine body, possibly being one of the series of underground passages of which Wyandotte and Marengo caves are part. The qualities of the water are similar to those of all good springs, so far as taste goes, but it is not known that an analysis of it was ever made.
